Re: PH BUILDING & MAINTENANCE PTY LTD

It is with great pleasure that I recommend PH Building & Maintenance Pty Ltd as a builder of choice, quality and impeccable ethics.

PH Building have worked under my company as head contractor on many complex refurbishment projects, major capital works, and smaller projects all of which have been performed within the budget, timelines and to the clients scope of works. Most recently they completed a complex refurbishment and expansion of the Hawthorn Football Club playing and administration facilities at Waverley Park in Victoria. PH Building performed this work according to the specification and within the timeframes required by the client.

PH Building delivers a strong team of tradesmen and sub-contractors who all have a strong customer focus and excellent workmanship. PH look after their team and above all are always acutely aware of the environment in which they work – schools, hospitals, elite sports clubs, private residences and small and large commercial buildings, their team treat every job, the clients, their staff and/or students with respect, courtesy and patience.

PH Building is a building firm I would recommend to any client who requires a high level finish, a job bought in on budget, and a caring and professional service.

Yours Faithfully

Lisa Gordon
Director
